Collaborations and Partnership

Collaboration Title	Botany in British India study day
Contributions Made	An international study day held to launch the Botany in British India project, hosted by the British Library. This event was held in conjunction with a University of Sussex AHRC-network international conference 'Collaborative Research on the meteorological and botanical history of the Indian Ocean'. The two events were designed to be complementary in terms of content and speakers.
Year Commenced	2012
Year Ended	2013
